Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Group I, claims 1-38, drawn to olefin polymers and their corresponding processes of manufacture.
- II. Group II, claim 35, drawn to a process for preparing an olefin polymer containing a functional group at the terminal.
- II. Group II, claim(s) 39-44, drawn to a process for preparing a polymer.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Present claims 1-38 are drawn to an olefin polymer. Claim 35 relates to a process for preparing an olefin polymer different from those recited in claims 1-38 comprising a different process than those recited within the set of claims 1-38. Claims 39-44 relate to a process for preparing an olefin polymer comprising steps not recited in claims 1-38. Therefore, it appears that claims 39-44 are drawn to an entirely different process. The examiner notes that the claims are not written clearly enough to make any determination that claims 39-44 are related in any fashion.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- (1) an olefin polymer prepared from at least one C₂₋₂₀ olefin
- (2) an tapered olefin copolymer
- (3) an olefin copolymer of defined monomer sequence distribution
- (4) a block copolymer

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:

- (1) Claims 1-6 and 26-34
- (2) Claims 7-9, 26-34 and 36-38
- (3) Claims 10-15 and 26-34
- (4) Claims 16-34, 37, and 38

The following claims are generic: Claims 1, 7, 10, and 16.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Claims 1, 7, 10, and 16 are drawn to four separate polymers because each possesses a distinctive constitution and morphology with distinctive properties. There is no indication that the four claims directly describe the four separate species.

6. A telephone call was made to Marc S. Weiner on October 7, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1713

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
